REALVISION 3D MEDICAL MONITOR FOR DICOM

Thanks to Realvision 3D monitor, it will be able to elaborate DICOM studies and visualize them in 3D.

The performant Wi-Fi connection between our monitors and tablets allows users to simultaneously visualize patients' 3D data, images and series on more than one device.

**Our monitor is perfectly suited for and compatible with DICOM standard from
CT, MRI etc.**

DICOM images displayed on Realvision 28" and 43" 3D monitor have the real depth, brightness and color of the body part under investigation.
